HYDRANT METER SETS ONLY: Hydrant Meter Size (Circle One): 5/8" (or) 3"

Hydrant meters are generally set within 48 hours of application. In the event of a hurricane watch or hurricane warning, all hydrant meters will be removed from the customer site without prior notification to the customer.

**APPLICATION FOR HYDRANT METER AND NEW SERVICE INSTALLATION
TOWN OF JUPITER UTILITIES
210 MILITARY TRL, JUPITER FL 33458**

Will your meter service an in-ground lawn irrigation system? Yes _____ No _____ Not Sure _____

If no, does the system use Well water? Yes _____ No _____ Not Sure _____

Meter Size (Circle One): 3/4" 1" 1 1/2" 2" (or) Fire Meter Size _____

*** All commercial meters require a backflow assembly to be installed and tested upon installation of the water meter. It is the responsibility of the customer to have a backflow assembly installed and tested with the results being forwarded to the Town. The Town will provide annual notification of required backflow testing to the current customer with established service at the location.**

The Town of Jupiter does not install water meters larger in size than 2". All meters over 2" in size must be purchased and installed by the contractor as per the Town of Jupiter Utilities specifications.

Single family residential homes that are a minimum 3,500 square feet in size and built on property of 0.25 acres or larger, shall be required to install a minimum of a 1 inch meter to meet the domestic and irrigation needs of the property. Single family residential homes that do not require potable water as an irrigation system source and are a minimum 4,000 square feet in size shall be required to install a minimum of a 1 inch meter to meet the domestic needs of the property.

Commercial metered service is dependent upon the use of the property and the reservation fees paid. No meter will be set for less than 1.0 ERC. Meter size and connection fees shall be determined by the Town prior to this application being processed by the Town.

Installations are usually done within 5 to 10 working days from date of payment unless there is a water main tap required. If a tap is required, the meter installation will be done within 10 to 15 working days following payment of the required tap fees.

Security Deposit Requirements: A security deposit is required to establish a new account with the Utility. The deposit is non negotiable or transferable between individuals. Deposits are credited on the account after sixty months of excellent payment record. Interest is accrued and paid annually at a rate approved by the Town of Jupiter Town Council. The Utility reserves the right to require a new deposit or increase a deposit amount due to an unsatisfactory payment record. By this application, customer recognizes that the Town of Jupiter Utilities is not responsible for loss or damage as a result of initiation of service. The Town of Jupiter does not connect the customer side to the meter. The customer is responsible for the connection to the water meter from the structure being served. Unfortunately we are unable to provide the exact time of service installation however, this will be done during regular business hours only.

Please make check payable to: Town of Jupiter VISA, MasterCard and American Express are accepted over the phone and at our payment counter only.
